

HELP ME THROUGH THE NIGHT (Ede Staal)

INTRO

**Help me, help me, help me through the night.
I don't need your help in the daytime.
Then I got my dreams under control.
Call me a loser or a clown
Who turned his world so upside down
That I need help. So, help me, help me through the night.**

**Show me, show me, show me there is life.
Show me there's a reason for tomorrow.
Then I got myself under control.
Call me a loser or a clown
Who turned his world so upside down,
That I need help. So, show me, show me there is life.**

TUSSENSPEL

**Tell me, tell me, tell me all these words
Just explain the sence of all the suffering.
Then I got myself under control.
Call me a loser or a clown
Who turned his world so upside down,
That I need help. So, tell me, tell me all these words.**

**Give me, give me, give me all your love.
Teach me to surrender to your feelings.
Then I got myself under control.
Call me a loser or a clown
Who turned his world so upside down,
That I need help. So, give me, give me all your love.**
